

MUFFLERS

hushpak
engineering

...the quiet achievers

Hushpak is experienced in the custom design, manufacture and installation of specialised exhaust and muffler systems to control noise output on a wide range of noisy machinery and equipment. We have built a strong reputation for reliable and effective noise control.

Our custom designed mufflers provide optimum noise suppression without compromising engine efficiency. We use superior materials that withstand harsh conditions and also manufacture replacement parts.

To ensure control over the quality of our solutions, we manufacture our products with our own tradespeople in Hushpak's fully equipped workshop in Newcastle, Australia.

Hushpak has equipped entire fleets of equipment for open cut and underground mines in the Hunter Valley, achieving exceptional results. Our capabilities include:

- ✔ Large dozers
- ✔ Front end loaders
- ✔ Large haul trucks
- ✔ Underground transporters

COMPLETE NOISE CONTROL SOLUTION

Hushpak's mufflers are part of our wide range of noise control products. We will deliver a complete solution – custom designed for your noisy machinery.

CUSTOM SOLUTIONS

Hushpak has the skills and experience to find the right solution to achieve the level of sound reduction you need.

We may select one of our ready made products, or develop an innovative solution, purpose built for your specific needs.

ENGINE EFFICIENCY

Hushpak's mufflers are designed using the latest materials, giving optimum noise suppression with no compromise on engine efficiency.

They are designed to ensure a long life under the harshest conditions.

Hushpak is a leader in noise source attenuation systems, noise enclosures and barriers
